Cowra The Great Escape

Cowra is a city in the central west of New South Wales, Australia. It is in Cowra Shire. It is 310m above sea-level and about 300 km west of Sydney. Cowra is on the banks of the Lachlan River. ... The name Cowra comes from a local aboriginal word meaning "eagle on the rocks".

Known for: The Cowra Breakout was an infamous World War II incident in Australia when 1000 Japanese POWs staged a mass breakout that was the biggest in British and Australian war history.

Go back in time to discover Cowra's history, including the Australia's World Peace Bell.

Judging Classes

Un-restored Original

This category is for vehicles that have had no more than minimal restoration. This includes repairs due to accident damage or panels replaced as a result of rust repairs with sections repainted. The vehicle should be in "from the factory" configuration. Era "pillar-bolt" seat belts in pre-66 vehicles are not considered a modification as they were commonly an option from the dealer. Engines should be a 149, 161, 179 or 186 red motor only (& derivatives – X2 & 186S). Other "Dealer fitted" mods can include "Tilley stripes" (aftermarket extra side flashing commonly added by dealers to glitz up their vehicles), air conditioning, multi-tone paintwork.

Restored Original

This category is for original vehicles as above but fully restored or more than minimum restoration. This includes vehicles that have had a full respray. Engines should be a 149, 161, 179 or 186 red motor only (& derivatives – X2 & 186S).

Era Sports

This category is for vehicles modified with 1960's era modifications including - floor shift 3 speed manual / auto, sports steering wheel, mag wheels (13 & 14in only, 15in Volvo rims) , engine mods – electronic ignition with external module (non-VB-K distributor), Speco or similar intake manifolds, triple SU's, triple Strombergs, era Holleys to 4bbl, era supercharger / induction, era gauges, extractors, sports seats, gearbox upgrade to era gearboxes only up to 4 speeds (unless proof can be shown that gearbox was in an era vehicle). Also for HD's with HR front end panels or vice versa. Engines should be 149 to 202 red motors. (pre Commodore)

Modified

This category is for vehicles running 149 to 202 Red, Blue & Black motors with modifications above Era sports. Modern wheels, turbo, supercharger (non era), 5 speed gearbox or later auto.

Highly Modified

This category is for vehicles with an engine other than Modified (Class 4) such as RB30, V6 or V8 of any breed. It is also for vehicles that have had major body modifications like mini- tubbed, chassis, including one-tonner configuration, re-body onto 4x4 or Cressida chassis.

NASCO accessories were available to all HD & HR's regardless of their specification. For example a Standard with "X2" gauges is not considered Era Sports. Aftermarket gauges in any model are a "grey area" as they are just as likely to be dealer fitted as added by an owner later.
